ACD/Manager		Depository/Trustee	
UBS Global Asset Management Funds Ltd		The Royal Bank of Scotland plc	
Fund Code	SEDOL	Fund Type	
UBUCA	B1QK7F4	OEIC	
Objective			
To seek to generate a return greater than the return provided by UK investment grade corporate bonds, derived from investment in UK and global securities. The Fund invests in government bonds, non-government bonds (including bonds issued by local authorities, supra-nationals, agencies and corporate entities); fixed rate, variable rate, inflation-linked, index-linked and non-sterling bonds (including emerging market debt); secured and unsecured debt securities (including floating rate notes); and investment grade and high yield bonds; and may express views on exchange rates. Additionally, the Fund may invest in other transferable securities (including warrants), money market instruments, deposits, cash and near cash and units in collective investments schemes. At its discretion the Manager may use derivatives including forward foreign exchange, forward and futures contracts, swaps, options, repurchase agreements and structured credit, for investment purposes and or to manage interest rate, inflation, credit and currency exposures.

ACD/Manager		Depository/Trustee	
UBS Global Asset Management Funds Ltd		The Royal Bank of Scotland plc	
Fund Code	SEDOL	Fund Type	
UBMIA	B4S2TV9	OEIC	
Objective			
<p>The Fund seeks to provide an income, through a diversified portfolio of investments. Capital growth will not be a primary consideration, although opportunities for growth may occur if market conditions are favourable. The Fund will invest in a mix of transferable securities including domestic and international equities and bonds, units in collective investment schemes, warrants, money market instruments, deposits, and cash or near cash, as the Investment Manager deems appropriate. There are no geographical restrictions on the countries of investment. The Fund may use a range of derivatives instruments which include foreign exchange, forward and futures contracts, swaps and options and other derivatives for investment purposes and/or to manage interest rate and currency exposures. Index futures and other derivatives are used to manage market exposure inherent in an invested portfolio. Increasing or reducing market and currency exposure will entail the use of long or net short positions in some derivative instruments.</p>

ACD/Manager		Depository/Trustee	
UBS Global Asset Management Funds Ltd		The Royal Bank of Scotland plc	
Fund Code	SEDOL	Fund Type	
UBUSE	B1YKF52	OEIC	
Objective			
<p>To seek to achieve long term returns through active management of a diversified portfolio invested primarily in US equities, equity instruments and derivatives. The Fund will invest on average 130% of its net assets in long positions and exposures to US equities and around 30% of its net assets in short positions. In doing so, the Fund will invest mainly between 110% and 140% of net assets in long positions with the corresponding short positions mainly comprising between 10% and 40% of the Fund's net assets. The Fund will achieve its long and short positions and exposures by investing in equities, equity instruments and derivatives, including forward foreign exchange, forward and futures contracts, structured products, swaps, options, equity-linked notes, contracts for differences and repurchase agreements or other investment techniques permitted in FSA rules. The Fund may also invest in other transferable securities (including warrants), money market instruments, deposits, cash and near cash and units in collective investments schemes.</p>
