ACD/Manager		Depository/Trustee	
Insight Investment Funds Management Limited		The Royal Bank of Scotland Plc	
Fund Code	SEDOL	Fund Type	
RTIGW	3400146	OEIC	
Objective			
<p>The objective of the Fund is to achieve capital growth. The policy of the Fund is to gain exposure to one or more of the following asset classes: fixed income, cash, near cash and deposits, equities, property, collective investment schemes which have as their objective an absolute or target return and structured products. The fund is likely to have a bias towards equities, although the fund is not restricted in the choice of asset class. Exposure to these asset classes will be achieved through investment in collective investment schemes, transferable securities, money market instruments and derivatives. Investment in property will be indirect. Investment of the Fund may be in any geographic or economic sectors of the world. Derivatives may be used for efficient portfolio management as well as for meeting the investment objective of the Fund. For the avoidance of doubt, the types of derivatives that may be used include those the returns on which are referenced to the performance of financial indices based on commodity prices.</p>

Objective			
<p>The Diversified Target Return (DTR) Fund's objective is to deliver positive returns on an annual basis with the prospect of long-term capital growth commensurate with investment in equities. The policy of the Company is to gain exposure to one or more of the following asset classes: fixed income, cash, near cash and deposits, equities, property, collective investment schemes which have as their objective an absolute or target return and structured products. Exposure to these asset classes will be achieved through investment in collective investment schemes, transferable securities, money market instruments and derivatives. Investment in property will be indirect. Derivatives may be used for the purposes of efficient portfolio management and/or for meeting the investment objective of the Company. It is not intended that the use of derivatives in this way will cause the Net Asset Value of the Company to have high volatility or otherwise cause its existing risk profile to change. For the avoidance of doubt, the types of derivatives that may be used include those the returns on which are referenced to the performance of financial indices based on commodities prices.</p>
